PLANK · REF CFD140

Weathered Grey Douglas Fir

A Douglas fir floor with a soft, grey-washed tone laid over warm, honey-coloured grain. Douglas fir grows quickly, so its grain is open and boldly figured; the grey wash calms it into a relaxed, Scandinavian-style floor.

Supplied 200 mm or 260 mm wide, in 15.5 mm or 20.5 mm thicknesses, in random lengths of 1.7–2.45 m, with longer boards up to 4 m available — ideal for large, open spaces. Prime & Rustic A mixed grade: many boards are clear, while some show sound and cracked knots up to 35 mm and dead knot holes up to 20 mm. Sapwood is part of the natural character of Douglas fir. Also available as herringbone, chevron and matching stair treads.

Product specification

Product name	Weathered Grey Douglas Fir
Reference code	CFD140
Flooring type	Engineered Douglas fir — plank
Construction	Engineered — Douglas fir top layer on a stable core
Overall thickness	15.5 mm or 20.5 mm

Wood species	Douglas fir
Grade	Prime & Rustic A mixed
Surface finish	Prefinished, or unfinished on request
Installation method	*Available on request*
Joint profile (T&G; / click)	*Available on request*
Underfloor heating	*Available on request*
Max. floor surface temperature	*Available on request*
Installation conditions	*Available on request*
Pack coverage	*Available on request*
Standards & certifications	*Available on request*

Notes

Items marked *available on request* are not yet confirmed for this product and are deliberately left blank — please contact us to confirm installation method, underfloor heating limits, pack coverage and certification before specifying or installing. Natural oak varies in colour and grain between boards and batches; photographs are representative, so always approve a physical sample before ordering.

Care: see the Cambridge Floors **Oak Floors — All Finishes** care guide.
